**EMPOWERING SMBS  
WITH DATA-DRIVEN  
INSIGHTS AND  
SUSTAINABLE  
GROWTH  
STRATEGIES**

5-minute read

In today's competitive landscape, small and medium-sized businesses (SMBs) need more than just traditional accounting services. They need a strategic partner who can help them harness the power of data, navigate ESG (Environmental, Social, and Governance) considerations, and achieve sustainable growth. Adroit Advisors is here to be that partner.

### **Why Choose Adroit Advisors?**

At Adroit Advisors, we are not just accountants—we are a modern firm of Chartered Accountants specializing in empowering SMBs across various sectors. We combine our deep accounting expertise with cutting-edge data analytics and a commitment to sustainability to help our clients thrive.

#### **Data-Driven Insights for SMB Success**

Businesses that leverage AI and data-driven insights are more likely to outperform their competitors, who do not. Research shows that many SMBs utilizing these tools experience improved efficiency, customer satisfaction, and financial performance. By adopting AI and cloud-based data technology, SMBs can unlock the full potential of their data, leading to smarter decision-making and uncovering hidden growth opportunities.

We provide efficient and accurate accounting services with cutting-edge AI tools and automation, freeing up your time and resources. Our advanced data analytics help you make informed decisions, enhancing your ability to compete in a crowded market

#### **Navigating ESG with Expertise**

Today's businesses must consider their environmental, social, and governance responsibilities. At Adroit Advisors, we guide you in developing and implementing ESG strategies that align with your business goals and values. By measuring, tracking, verifying and reporting on your ESG engagements, we help you enhance your reputation and attract environmentally, socially and governance-conscious stakeholders.

#### **Strategic Advisory Beyond Traditional Accounting**

We understand that accounting is just one piece of the puzzle. That's why we offer strategic planning, financial management, and growth strategies tailored to your business. Our approach ensures that your business not only survives but thrives in today's market. We help businesses integrate ESG reporting into their financial disclosures, providing stakeholders with a more comprehensive understanding of their business interests performance, and impact.

#### **Building a Data-Driven Culture**

For SMBs to fully leverage the power of data, it's crucial to build a data-driven culture. This starts with leadership and is supported by investing in the right tools and fostering data literacy across your organization. By embedding analytics tools into your business processes, you can enhance customer experience, improve financial management, and make data-driven decisions that lead to actionable insights.

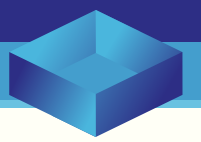

#### **Leveraging Big Data for Big Results**

Big data isn't just for large corporations. SMBs can also benefit from big data to understand customer preferences, optimize marketing strategies, and boost overall performance. The right data strategy can turn information into actionable insights, helping SMBs thrive in even the most competitive markets.

#### **Methodology for Sustainability Assurance**

##### **Our Approach:**

We leverage our expertise in audit, assurance, tax, advisory, and big data to provide independent and objective assurance services, enhancing the credibility and transparency of your sustainability reporting. Our methodology is grounded in global and financial reporting standards of Nigeria, (FRCN), recognized standards and frameworks, ensuring the highest quality of assurance.

## What We Do:

### Understand Your Needs

We begin by collaborating with you to understand your specific sustainability goals, stakeholder concerns, and reporting requirements. Our advisory team can assist in developing a tailored sustainability strategy aligned with your business objectives and compliant with the IFRS, S1, and S2

### Identify Material Issues

Through a thorough materiality assessment, informed by big data analytics, we identify the sustainability topics that are most significant to your business and stakeholders.

### Gather and Verify Data

We employ rigorous audit procedures to collect and verify data from various sources, including internal records, third-party reports, and stakeholder interviews. Our big data capabilities enable us to analyze large datasets and identify trends.

### Assess Performance

We evaluate your sustainability performance against relevant metrics and benchmarks, identifying areas of strength and opportunities for improvement. Our tax expertise can help you identify potential incentives or tax credits related to your company's engagement in sustainable practices.

### Provide Assurance

We issue an independent assurance opinion on the reliability and accuracy of your sustainability information, providing stakeholders with confidence in your reporting.

## Our Commitment to Quality:

### Expertise

Our team comprises experienced professionals with expertise in sustainability, accounting, audit, assurance, tax, advisory, and big data analytics.

### Independence

We maintain strict independence to ensure objectivity and impartiality in our assurance engagements.

### Transparency

We communicate our methodologies and frameworks, fostering trust and open dialogue. Just like we did in this content.

### Continuous Improvement

We stay abreast of the latest standards and best practices, continuously enhancing our services to meet your evolving needs

## Our Services:

### Assurance on Sustainability Reports

We provide assurance on sustainability reports prepared in accordance with GRI, SASB, IFRS, S1, and S2 or other recognized frameworks.

### Assurance on Specific Sustainability Metrics

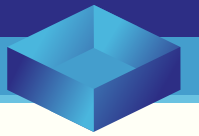

We offer assurance on specific sustainability metrics, such as greenhouse gas emissions or water usage, etc.

### Gap Analysis and Recommendations

We identify gaps in your sustainability reporting and provide recommendations for improvement, supported by our advisory services.

### Training and Capacity Building:

We offer training and workshops to enhance your internal sustainability reporting capabilities, leveraging our big data expertise.

## Partner with Us:

Let us help you navigate the complexities of sustainability reporting and demonstrate your commitment to a sustainable future. Contact us today to learn more about our audit, assurance, tax, and advisory services, and how we can support your sustainability journey with the power of big data.
